

## **Congressional's Wish List**

Time and treasures are always necessary and appreciated gifts to the school but there's another way to help – a way that will make some specific wishes come true! Congressional's faculty has developed a list of special items that will assist in classroom instruction or provide general benefit the school community.

Perhaps you have professional or personal connections that can help the school secure something from the list? Maybe something on the list "speaks to" a personal passion? If so, please contact [Missy Henriksen](#) at (703) 533-9711 to learn how you can grant a wish and make dreams come true! Please check back to see what wishes have been granted and to learn what new ones have surfaced!
